Italicizing Message.
Version 2

Hello there!

Hello there!

Italicizing text

Trigger:
User hovers and clicks on "T" icon

Feedback:
User sees a pop up with bold, italics, underline and strikethrough options

Rules:
Users can un-click the "T" icon if they don't want to see the pop up of text options.

Italics icon

Trigger:
User hovers and clicks on "*I*" icon

Feedback:
User sees the icon color changing to magenta as well as the text message being italicized.

Rules:
Users can un-click the "*I*" icon if they don't want to italicize the text message or they can click on "T" icon for the pop up to disappear.
